THE STORY

The Philosophy

Every surface tells a story before a word is spoken. It shapes the mood of a room, the character of a home. We believe design isn't decoration — it's the language spaces speak first. So every laminate we create is engineered with texture, depth and intent. The result: surfaces that don't just cover, but complete.

The Promise

Our laminates are built on two non-negotiables — precision and durability. Each collection brings contemporary aesthetics into everyday living. We collaborate closely with architects, designers and homeowners alike. Our surfaces withstand daily life without ever compromising on beauty. This is design built to last — because great spaces deserve nothing less.

360 WORLD

Step beyond the surface and explore every detail from every angle. 360 World transforms laminates into an immersive experience, allowing architects, designers, and customers to visualize applications in real spaces before making decisions. Experience designs, textures, and finishes as they come to life in a seamless virtual environment.

The company does not assume obligation or liabilities arising from the furnishing, sale, installation or repair, use or subsequent sale of any product, to any person or entity.

Specifications : DIFF wide range of decorative laminates is manufactured using multiple layers of Kraft papers and design papers sourced from top Japanese and European manufacturers. The Kraft paper layers are then impregnated with phenolic resins and the design paper with melamine. Then these layers of Kraft and design papers are pressed under heat and pressure. This process makes the laminates stronger and resistant to most wear & tear issues. The use of high-grade raw materials ensures better flexibility and durability.
